

# keshi, Soft Spot

I don't go out but I'll do it for you  
You never liked it when I drink too much  
I hate to dance but I'll dance for you  
Cus I'd do anything to feel your touch  
Don't like anybody tell me why it's different with you  
Don't believe in love but no one makes me feel like you do  
I don't say it much cus I just always thought that you knew  
It's what you do to me  
I'm wrapped around your finger and I can't stop  
You know I got a soft spot for you  
You know I got a soft spot for you  
Baby can't you see  
I need you cus you're everything that I'm not  
You know I got a soft spot for you  
You know I got a soft spot for you  
Too late  
Don't wanna fall baby I just  
Don't need somebody else to throw me aside  
But I'm up all night  
Thinking bout how it could be you to  
Change my heart but I  
Don't like anybody tell me why it's different with you  
Don't believe in love but no one makes me feel like you do  
I don't say it much cus I just always thought that you knew  
It's what you do to me  
I'm wrapped around your finger and I can't stop  
You know I got a soft spot for you  
You know I got a soft spot for you  
Baby can't you see  
I need you cus you're everything that I'm not  
You know I got a soft spot for you  
You know I got a soft spot for you  
For you  
For you, for you  
For you  
You know I got a soft spot for you  
It's what you do to me  
I'm wrapped around your finger and I can't stop  
You know I got a soft spot for you  
You know I got a soft spot for you
