

keshi, SOMEBODY

Baby, why the hesitation?
'Cause I know that you can feel it, too
You want more and I can taste it
Let me show you what I wanna do
Tryna get trapped in your leg lock
Go another round, make the bed rock
Yeah, bite the neck, I'ma make it sweat
Never give you no rest, never give you no rest

You needed somebody, baby put it on me
I can be that body, said, I can be that body
You needed somebody, baby put it on me
I can be that body, said, I can be that, girl

Baby it's you, baby it's you
(Fuck around, put you down, get it loud, 'nother round)
Baby it's you
(You needed somebody, baby put it on me)
Tell me where you want, tell, tell me where you want it
Baby it's you, baby it's you
(Fuck around, put you down, get it loud, 'nother round)
Baby it's you
(You needed somebody, baby put it on me)
Tell me where you want, tell, tell me where you want it

Back it up girl, now you speakin' my language
Show me your favorite spots, but you don't gotta say it
(Pull me close, hold it tight, let me go, through the night)
Saddle up girl, why you keepin' me waitin'?
Hold on, if you wanna get off
If you want love, we gon' make it

You needed somebody, baby put it on me
I can be that body, said, I can be that body
You needed somebody, baby put it on me
I can be that body, said, I can be that, girl

Baby it's you, baby it's you
(Fuck around, put you down, get it loud, 'nother round)
Baby it's you
(You needed somebody, baby put it on me)
Tell me where you want, tell, tell me where you want it
Baby it's you, baby it's you
(Fuck around, put you down, get it loud, 'nother round)
Baby it's you
(You needed somebody, baby put it on me)
Tell me where you want, tell, tell me where you want it

Pull me close
Pull me close
Hold it tight
Pull me, pull me close
Pull me close
Pull me close
Hold it tight
Pull me, pull me close
