

Kevin Borg, Paint It Black

I'm not gonna make it wrong if it's right
I'm not gonna paint it black when it's white
If I'm gonna make it, I'll never have to break it
I'm never gonna paint it black ooo
I used to be so blind
Not seeing in all the thing
That were so right
And all those times alone
I could have changed my world
Whit just a word
I'm not gonna fake it
I'm gonna break it
Can't even keep track of what I'm goin through a a a a
It's drivin me crazy
Can anyone save me
I can do it better
I'm not gonna make it wrong if it's right
I'm not gonna paint it black when it's white
If I'm gonna make it, I'll never have to break it
I'm never gonna paint it black ooo
I still wonder why I never took the time to think it twice
Break these chains of lies when you're already tied
And realise what you're goin through
I'm crossin over
It's getting colder
Now's the only time I can make it through a a a a
I'm getting closer
To the end of the rollercoaster
I can do it better
I'm not gonna make it wrong if it's right
I'm not gonna paint it black when it's white
If I'm gonna make it, I'll never have to break it
I'm never gonna paint it black
I'm not gonna make it wrong if it's right
I'm not gonna paint it black when it's white
If I'm gonna make it, I'll never have to break it
I'm never gonna paint it black ooo
Now the time has come to make it right
I realise that I was blind
I'm not gonna fake it
I'm not gonna break it this time
I'm not gonna make it wrong if it's right
I'm not gonna paint it black when it's white
If I'm gonna make it, I'll never have to break it
I'm never gonna paint it black
I'm not gonna make it wrong if it's right
I'm not gonna paint it black when it's white
If I'm gonna make it, I'll never have to break it
I'm never gonna paint it black
