

Kevin Lyttle, My Love

(Will never die)

Saw you last night again in a vision looking so lovely.
Can't believe you took my breath away, love that I'm feeling.
I reached out to touch you then you were gone again my friend
I hope we were lovers, maybe someday even more than friends.

[Chorus]

This love that I got, spirits fly so high, straight to the mountain top.
No turning back, the river's run dry.
My love will never dry (trust me believe me it's true)
My love will never dry (trust me believe me it's true)
My love will never die
My love will never die

Full moon tonight again and I'm wanting you, feel like romancing.
Got my bedroom set for 2, just me and you.
We'll fly our magic carpet to the stars I know you like it.
I'll be a genie if you ask it just bring your lamp and I will rub it girl.

[Chorus]

We'll fly our magic carpet to the stars I know you like it.
I'll be a genie if you ask it just bring your lamp and I will rub it girl.

[Chorus x2]

My love, my love will never die
My love will never die
My love will never die
My love will never die
