Wyclef in the area  
Kevin Michael in the area  
What we tell the girls  
I got love for ya (girls)  
Hey, I got love for ya (girls)

With all the black with all the white with all the Asian  
The Caribbean the African the Latin woman  
The European, Middle Eastern and the Indian  
This one goes out to all the girls around the nation

(Verse 1)

All you gotta do is look at me  
Three generations in my family  
You see  
People treat you different when you're in between  
He was black and she was white  
You know that most people thought that it wasn't right  
I could still remember what she used to say

(Chorus)

It don't make any difference to me (one love, one love)  
What the world thinks about us baby (yup, one love, one love)  
Cause in my heart I will always believe (yup, one love, one love)  
That we were meant for each other  
Love ain't got no color  
It don't make any difference to me (Yeah)  
What they see

With all the black with all the white with all the Asian  
The Caribbean the African the Latin women  
The European, Middle Eastern and the Indian  
This goes out to all the girls around the nation

(Verse 2)

Every time I look at you  
Deep in your brown eyes I see  
What you're going through  
The streets are different  
If you're in between  
Oh, I could feel it everyday

The whispers, the words that they  
Think I don't hear them say  
Before you let a tear fall  
Remember girl

(Chorus)

It don't make any difference to me (one love, one love)  
What the world thinks about us baby (yup, one love, one love)  
Cause in my heart I will always believe (yup, one love, one love)  
That we were meant for each other  
Love ain't got no color  
It don't make any difference to me (Yeah)  
What they see  
Ohh

(Verse 3)

Baby things gone change but it's still the same  
We gone find a way so we can maintain  
Even though it might get a little difficult  
Always remember girl that we're inseparable

(Chorus)x2

It don't make any difference to me (one love, one love)  
What the world thinks about us baby (yup, one love, one love)  
Cause in my heart I will always believe (yup, one love, one love)  
That we were meant for each other  
Love ain't got no color  
It don't make any difference to me (Yeah)
