

# Kevin Michael, It Don't Make Any Difference To Me

It don't make any difference to me  
What the world thinks about us baby  
Cuz in my heart I will always believe  
That we were meant for each other  
Love ain't got no color  
It don't make any difference to me  
What they see

(Verse 1)

All you gotta do is look at me  
Three generations in my family  
You see  
People treat you different when you're in between

He was black and she was white  
You know that most people thought that it wasn't right  
I could still remember what she used to say

(Chorus)

It don't make any difference to me  
What the world thinks about us baby  
Cuz in my heart I will always believe  
That we were meant for each other  
Love ain't got no color  
It don't make any difference to me

(Verse 2)

And every time I look at you  
Deep in your brown eyes I see  
What you're going through  
They treat different  
If you're in between  
I could feel it everyday  
The whispers, the words that they  
Think I don't hear them say  
Before you let a tear fall

Remember girl

(Chorus)

It don't make any difference to me  
What the world thinks about us baby  
Cuz in my heart I will always believe  
That we were meant for each other  
Love ain't got no color  
It don't make any difference to me  
What they see

Ohh

(Verse 3)

Maybe, people might change  
But I really don't think they will  
I know you know it  
And baby, we could run away  
But then we'll be running away from feeling  
Do you know it, do you know, do you know it  
And baby, I'm telling you now  
Don't you ever look down  
Don't you ever look down again  
Cause remember

(Chorus)x2

It don't make any difference to me  
What the world thinks about us baby  
Cuz in my heart I will always believe  
That we were meant for each other  
Love ain't got no color  
It don't make any difference to me

What they see
