

# Kevin Tellie, I Wish When She Said Come Closer

Take away my heart and take me into to you  
Take back my forced smiles and take me back to you  
Let me get inside and let me tell you me

Before I take too long let me figure this out  
Before I turn my head, I don't doubt  
When I walk outside I'm as empty as you feel  
When I walk inside I feel with you

Could you find a place in your heart?  
And with that place take hold of my hand  
You could walk right beside me  
And lay down with me in the sand

Before I take too long let me figure this out  
Before I turn my head, I don't doubt  
When I walk outside I'm as empty as you feel  
When I walk inside I feel with you

I'd use words but I'm speechless  
I'd use my hands but I'm numb  
I'd think about it but what's to think about With you upside down?

You said would you get up  
I waited for you to help me  
I'm waiting for you to help me

Before I take too long let me figure this out  
Before I turn my head, I don't doubt  
When I walk outside I'm as empty as you feel  
When I walk inside I feel with you  
I feel with you  
I feel with you  
I feel with you
