

# Kevon Edmonds, Baby Come To Me

It's hard to conceive  
Or to trust and believe  
That you can find true love again  
Someone who'll understand  
Cause he hurt you and left you  
Broke your heart in two  
Now I'm here to rescue you  
Make all your dreams come true

1 - Baby, come to me  
Let me be your everything  
I'll be the only man you need  
If you just believe in me  
And baby you'll never wonder why  
My love will stand the test of time  
And you'll never have to look for love again

Looking in your eyes  
I begin to fantasize  
My very own angel sent for me  
Just to set this poor heart free  
Now I'm lonely no longer  
Feeling so complete  
Now I got to make you realize  
That my love will never die, oh baby

Repeat 1

Girl if you come to me  
We'll hear the angels sing  
Open your heart to me  
We'll have the perfect love  
Girl when you come to me  
I will, I will now and for always  
Supply your needs  
From here to eternity

Repeat 1

Da-da-da, ooh  
Baby come to me my love
