

Khalid, Backseat

Weed smoke, windows up, sitting in the parking lot
You bring your friend along but we all know she talks a lot
Neighbors at the balcony, I'm praying they don't call the cops
You getting paranoid, I whip around the block
You want me to air it out
You tell me it's getting hot
We smoke about half a J, I cannot retrace my thoughts
All these run on sentences, tell me what the difference is
Which one do you prefer?
Sative or Indica?

Backseat

I'm the one you need to be around
'Cause I won't bring you down
No, I won't bring you down
No, I won't ever bring you down
You don't gotta ask me
Already know what I will provide
No, I won't steer you wrong
No, I won't steer you wrong
No, I won't give you the run around

Say yes or no
Only if you wanna
'Bout that time
Time for me to roll up

Whipping around three deep
We're sitting in my jeep
Oh, it's been a stressful week
I could use the company
Searching for some inner peace
You still feel incomplete
You start to question shit like what's the point in anything

You want me to air it out
You tell me it's getting hot
We smoke half a J, I cannot retrace my thoughts
All these run on sentences, what the difference is
Which one do you prefer?
Sative or Indica?
