

# Khalid, Eleven

got my headlights off  
we're sitting outside  
if you cry in my car  
then we're here all night  
a couple blunts rolled and I got my windows down  
said: it's been a while since you been this high

if you're waitin' on love  
then you waitin' for a while  
if the neighbors wake up  
then we gotta turn it down  
so you say I am the type you like keepin' around  
you like keepin' around

late at night, eleven , we're cursing  
lately I've been watchin' your movements  
if I am the favorite drug you've been usin'?  
late at night, eleven , we're cursing  
lately I've been watchin' your movements  
if I am the only one that you're choosin'  
am I your favorite drug you've been usin'?

21, sittin' on my M5  
ride around summer  
all wheel drive  
couple blunts in and I got my windows down  
lookin' real nice in my passenger side

if you're waitin' on love  
then you waitin' for a while  
if the neighbors wake up  
then we gotta turn it down  
so you say I'm the type you like keepin' around  
you like keepin' around

late at night, eleven , we're cursing  
lately I've been watchin' your movements  
if I am the favorite drug you've been usin'?
