

Khalid, Free Spirit

we're running onto something
and we didn't say: Forever
but it's all we wanted
you're so in love with simple things
and now we're searching for the dripped in kerosene
I've been loving more, living less
off of highs and lows, so obsessed
couldn't get nothing
but we're never running put

we'll be free spirits
free spirits
can you hear me, calling?
it's all or nothing
when you're free spirits
free spirits
can you hear me, calling?
cause I don't wanna live and die alone
don't let me go

is this heaven and Armageddon
I'll be getting high with you to watch the ending
we're drowning down our memories
a cemetery full of bottles
man, that liquor bleed
when you're loving more, caring less
it's the highs and lows with no regrets
and we wanted it all then
but we're never running out

we'll be free spirits
free spirits
can you hear me, calling?
it's all or nothing
when you're free spirits
free spirits
can you hear me, calling?
cause I don't wanna live and die alone
don't let me go

so tell me whne you're falling
no, I can never doubt your love
can you hear me calling?
is it everything you're dreaming of?
leave it all on the night
as long as you're not leaving me behind
on your heart /2x
