

Khoiba, In Every Second Dream

I'm not armed
Head is replaced with a knife
Waiting for my portion of life
10 after 9, thoughts breeding
In essential rhyme
I've been losing life in every second dream
Will you find me awake
Eathing my selfextreme
I've been losing life in every second dream
Will you find me awake
Eathing my selfextreme
The terms hardly abusing my mind
I got you on the top of behind
Namelles guide i hear you chewing the words towards the scream
Who is more right
Who is in the right
I've been losing life in every second dream
Will you find me awake
Eathing my selfextreme
Eathing my selfextreme
I've been losing life in every second dream
