

# Khoiba, No Feedback

Your tear is up to lake  
Together we need a break  
...on time  
And speed as you can hide  
To hide before you fright  
I don't mind...  
I'm keeping up with you  
But there is more than 2  
Of us  
Can't you see it on my face  
I'm still ready for the race  
Or fight

Kick my mind  
Smack my blood  
Life is dead  
March to god  
I always did  
Save your soul  
Don't let it throw  
Over floor

Don't stop! Don't stop like this!  
Don't stop like this!  
Cause you are not the same like me!!!

Kick my mind till i'm blind  
The sixth of all is to fall  
I always did  
To save his soul  
Don't let it be thrown  
Over float

Won't be inlaid with lovely phrases  
Morning shows you up  
At least...
