

# Kickback, Murder Minded

Your death will strengthen our souls  
Born in the new age, innocence lost from the start  
The rape of angels - tearing their wings  
Laughing our way down  
Blessed in piss, shit and vomit  
Bleed for me  
We cum all over over your paradise  
A nightmare made flesh

Wrath of the new breed  
This world in flames

An endless bloodshed fills my mind - your world upside down  
Unclean desire - spread the filth  
Unclean desire - rape the dream

Bleed for me - give them violence, give them pain  
Bleed for me - this urge inside, this urge within

Slow, I arrive to destroy your paradise  
Intoxicated demons  
Locked down in me  
Release me  
We arrive to burn your houses down  
Children of blasphemy, desecrate all that is holy  
Bleed for me
