

# Kickback, Ruining The Show

Back again in this bitch  
With these sick thoughts in my head  
A recurent nightmare where this world turns red  
Ruining all the good times, I slither and infect  
Burning all my bridges, no remorse, no regrets

No respect for human lives  
Fuck your world, fuck your life  
Human rejects, worthless debris  
I stab your face with a rusty knife

Back again in this bitch  
With this sick thoughts in my head  
A recurent nightmare where this world turns red
