

Kid Courageous, Miss Singleton

I've seen you 1000 times
Never quite know how to say
These words that were on my mind

Hey girl, I know you but you don't know me
Or the way I feel that's hard to say,
so now I sing to you

If I saw you in the street
Would you turn away?

Miss singleton I love you
(I love you)
Miss singleton I crave for you
(I crave for you)

As I sat on the beach alone
Should I stay or should I go?
Caught your eye
And you just smiled

We talked, I choked
As the sun sank in the ocean
Saw the tide just wash my dream away

If I saw you in the street
Would you turn away?

Miss singleton I love you
(I love you)
Miss singleton I crave for you
(I crave for you)

I do...

Her voice echoes in my head
(in my head)
Too many words were never said
(Never said)
Girl, you know the feelings true
This is more than a song
This is a prayer for you

Miss singleton I love you
(I love you)
Miss singleton I crave for you
(I crave for you)

Singleton
Singleton
Singleton
Singleton
Singleton
Singleton
Singleton
Singleton
