

Kid Courageous, Our Days Are Numbered

You felt like a good idea
I don't know how I could've been so blind
Feeling like I'm always getting by
I'll never forget the times we've shared
I'm falling out of love tonight
It hurts so bad and it never felt right
I just won't take this anymore
So take me away from here
If I knew then what I know now
I'd of burned a bridge and stood my ground
Our days are numbered
I never said I'd never be someone else's fool
I'll never forget the times we've shared
I'm falling out of love tonight
It hurts so bad and it never felt right
I just won't take this anymore
So take me away from here
Seen a thousand stories, Heard them all before
Now that you're gone, Just another reason for our breakup song
I'm falling out of love tonight
It hurts so bad and it never felt right
I just won't take this anymore
Seen a thousand stories, Heard them all before
Now that you're gone, Just another reason for a breakup song
