

# Kid Cudi, Heaven At Nite

Have you ever been to heaven at nite (heaven at nite)  
Have you ever been to heaven at nite  
Heaven at nite

Have you ever been to heaven at night  
Closing your eyes the feeling so right  
At first you might see this one bright beam of light  
Crutching your soul?  
Happy unites and feelings take flight  
Blinds of the evils you give them no sight  
Focus on floatin, your focus is tight  
Like you be road ass you safe for a class  
To pass in the night  
Haave you ever seen the ending so nice  
You feel so free like your high as a kite  
Like how you feel if you drink some bud light  
Followed by Jag  
Models we smile then tilt our heads back  
These are a few of the visions I like  
Mixed in with light, these are my favorites to dream in the night  
This is my heaven at nite

Have you, ever been to heaven at nite (heaven at night)  
Heaven at nite (heaven at nite)  
Oh have you  
Ever been to heaven at nite (heaven at nite)  
Heaven at nite (heaven at nite)

Man  
Oh, I need what the world can't give me (cant give me)  
Can't give me  
Man  
Oh, I see what the world can't show me (cant show me)  
Can't show me  
God  
Oh, I like what the world can't give me (cant give me)  
Can't give me  
God  
Oh, I sing but the world can't hear me (cant hear me)  
Can't hear me
