

# Kid Down, I'll Do

I'll do it for you  
I will be here forever  
I'll do-o-o it for you  
I will be here forever

She turns out all of the lights  
When, when she looks in the mirror  
The pain that's stuck in her eyes  
Can she turn this to the right track?  
Get back  
To life  
And meet someone  
Like me that'll make her smile  
Whether she wants it or not

Yes, I'll do it for you  
I will be here forever  
I'll do-o-o it for you  
Yeah, I'll be here forever  
I will always be here right by your side  
Every second, minute, day of your life  
I will do it all for you

Sure I've seen you at class  
You know you've got the greatest \*\*\*?  
I want to suck on those feet  
Might tell you the next time we meet  
We'll fool  
Around  
Wanna' see you in a wedding gown  
Mum would be so proud  
Should I cross my fingers now?

He is so scary  
Wants to get married  
How did  
He get into my room?

Why did she punch me?  
I just said I love you  
Why did she call the cops on me?
