

# Kid Koala, Hope Will Find A Way

Yeah Yeah yeah yeah YEA!!  
i can see a glimpse of your goodness,  
in the beauty of the wide open sea .  
i can see a ray,  
of your mercy.  
let your light have strayed,  
through the clouds to me

(Chorus)  
Everywhere I go,  
i'm followed by this rainbow.  
It's full of colors that remind me.  
Speak your love for me.  
And I can almost reach out and touch it.  
I can almost see your face,  
And I can almost see this world full of grace  
like it was meant to be.  
Goodness and Mercy and Peace.  
Flowin' through the land.  
From the heights of mountains to the depths  
of the heart of the sea.  
Troubles like clouds blown away,  
If I could only capture this vision today  
and sing it like healing,  
to every broken heart.  
I know that hope will find A way A way  
I know that hope will find a way

I can feel the rain, it's fallin  
like whispers from heaven to me  
Carried by the wind,  
It's Callin,  
it's comin' to set my world free

(Chorus)

In the moonlight I lay back  
Lost me in the stars  
They can tie this in their beauty  
it reminds me, of who you are  
who you are, who you are

Goodness and Mercy and Peace.  
Flowin' through the land.  
From the heights of mountains to the depths  
of the heart of the sea.  
Troubles like clouds blown away,  
If I could only capture this vision today  
and sing it like healing,  
to every broken heart.  
I know that hope will find A way A way  
I know that hope will find a way A way  
I know that hope wil find a wayy.
