

Kids In Glass Houses, Dance All Night

Take a seat, I'll tell you how I'm feeling
Take a seat, I'll break that little heart
Make a scene and bite the hand that's feeding
It takes an end to know just where to start

The story goes
That I never learned to listen right
But I know that the only pleasure here was mine

So we dance all night
Yeah we'll be free before the morning light
Singing, I wanna know, I wanna know, know it all

Take a seat, cause now the blind are leading
Take a seat, cause now we're in the dark
Promises from you are not worth believing
If people have their price you're a la carte

The story goes
That you were never gonna treat me right
But I know that the only pleasure here was mine

So we dance all night
Yeah we'll be free before the morning light
Singing, I wanna know, I wanna know, know it all

Yeah we dance all night
Yeah we'll be free before the morning light
Singing, I wanna know, I wanna know, know it all

The story goes
That you were never gonna treat me right
But I know that the only pleasure here was mine

Dance all night
Yeah we'll be free before the morning light
Singing, I wanna know, I wanna know, know it all

Take a seat, I'll tell you how I'm feeling
Take a seat, I'll break that little heart
Take a seat, cause now the blind are leading
They take us from the end back to the start
