

Kids In The Way, Getting Over Me

This is me getting over you, getting over me
The line is breaking, the sun is sinking
There's nothing I can do to get back to you
There's nothing I can say
As the stars lead the way
To a place where memories die
Here lies a desperate heart
Covered in scars and broken parts
Never knowing what it's fighting for
Only knowing that it's love is sure
The line is breaking, the sun is sinking
There's nothing I can do to get back to you
Blood lines the leaves
Leads the way for my feet
To a place where memories die
We had a love like Johnny and June
I felt alive, I would have died for you
The gallows on the hill cast a shadow for two
As me and my love hang alone at high noon
So this is me getting over you, getting over me
