

# Kiely Williams, Circle Game

(Verse 1)

My friends ask me if I'm doing ok  
but it all depends on if you've called today  
So I guess that means I'm not doing so good  
and I'd forget about you baby if I could  
My friends ask me how I am tonight  
and if i've heard from you then i'll be doing a height  
and the the trouble with the situation  
We go up and down, in and out of love, because

(Chorus)

It's a circle game (It's a circle game)  
I don't wanna play (I don't wanna play)  
I think i'm over it  
and then I hear your name and I get lost in the sound  
and I can't find my way out  
It's a circle game (It's a circle game)  
Nothing's gonna change (Nothing's gonna change)  
Better half of me is telling me to lose your name and I get lost in the sound  
and I can't find my way out

(Verse 2)

Everyday is different but it feels the same  
My mood goes up and down with every move you make  
If I could i'd get my self off this ride  
and we'd be on the same page at the same time

Chorus

(Bridge)

I want off of this merry-go-round  
I keeps spinning me round and round  
It gets hard to breathe  
When your not with me  
and an hour can seem like iternity  
So baby  
What we keep going round and round and round we go  
Where we stop we never know  
Round and round and round we go  
Where we stop we never know  
Round and round and round we go  
Where we stop we never know  
Round and round and round we go  
It's a circle game

Chorus
