

Kieran Goss, I Came Through

I have always been the kind
To know my heart and know my mind
And know the time to walk away
And live to breathe another day

And I believe in destiny
To bring out all the best in me
And hope that love will see us through
Encouraged by the chosen few

You can say that your hearts been broken
And the world is a burden to you
I can say that my hearts been broken too
I came through

Fools will whisper in your ear
Tell you theres a fortune near
And measure all in pounds and pence
And trade your dreams for common sense

Half of everything you hear
Is only passing through your ear
So raise a smile and move along
Whether you be right or wrong

And I believe in God above
To send me every kind of love
And shine a light upon the way
That leads us to a better day
