

Kieran Goss, I Don't Want To Leave You

Sleeping late I hesitate
To get out of my bed
It takes half a day to find a way
To even clear my head
Then you turn around without a sound
But everything is said
With you by my side
I think I might
Just lay back down instead

I don't want to leave you
I don't want to let you go
I just want to love you
And I want to let it show
How I live for every moment
Since the day you said hello
I don't want to leave you
I don't want to let you go

I couldn't fight the morning light
Shining on your hair
So I hold you tight with all my might
With everything we share
How you mesmerise me with your eyes
How could I turn away
When you love me like a perfect night
In the middle of the day
