

Kilgore, Hang Time

Been pounded by the powers that be
Stripped of everything that is me
Lookin' back I'm being chased by my ignorance
And up ahead there ain't nothing but a fence
Right now I'm hanging on
To my friends and the ones I love
Time's still wasting on
With pain below and above
Been told that Jesus is the way to see
Go out and join a religious ministry
Well you can lick my fuckin' rod
Cuz I believe in a merciful God
Right now I'm hanging on
To my friends and the ones I love
Time's still wasting on
With pain below and above
I know when it's my time to live
You see I only got one life to live
And there's only so much that I have to give
Future's not as dark as it seems
If you just hold onto your dreams
Right now I'm hanging on
To my friends and the ones I love
Time's still wasting on
With pain below and above
