

Kill Hannah, 10 More Minutes With You

I don't know who you are
But now somehow you're breaking my heart
And I don't know where you are
But like a drug lift me up to the stars
It's why I'm feeling alive
It's the first time
Here's hoping this day won't end

I don't know now what to do
I don't care
I need ten more minutes with you

I don't know what you are
But one look and I'm hooked from the start
Now I'm falling apart
"That's what you get for falling in love"
Tonight I took in her eyes for the first time
Here's hoping this pain will end

I don't know now what to do
I don't care
I need ten more minutes with you
