Kill Hannah, Crazy Angel

It's serious I've got to find you when i start to feel this way You mesmerize me all the time And i'll hold on til tonight But that's too long Cuz you're an angel You're an angel My crazy angel My crazy angel So serious i've got to take you home again tonight Cuz right now you paralyze me with your smile As your wings discard there feathers on the ground I see a halo up above you My crazy angel My crazy angel I hold on so hard And pray that i won't say something wrong I look at the stars And dream that the universe was ours My crazy angel I hold on so hard

And pray that i won't say something wrong

And dream that the universe was ours

I look at the stars

I won't ever stop My crazy angel [x5]
