

Kill Hannah, Nerve Gas

Standing here in the ballroom as the dancers twirling
Everything to the marching drums
And lying here in your yard alone as all the old war pilots have done
Oh this little bird heart got so cracked
I can't sleep deep tonight
Oh no I can't for sure
I can't sleep deep tonight
Yeah better eject
Oh as we are
Nerve gas over us
Just leave that nerve gas on
Standing here in your yard alone as all the paratroopers dropped
It's how this little bird heart got so cracked
So I can't sleep deep tonight
So I can't sleep deep tonight
