

Kill Hannah, Stunt Pilots

It made a spark
Don't let the radars get you
Somehow send you down
And crash the car
But don't let the engine stop
They're going to catch you

CHORUS

We ought to be all over and in the news
We ought to be stunt pilots (stunt pilots, stunt pilots)
It made a spark
Don't let the radars get you
Somehow send you down
It looked so hard
Don't let the engines quit
They're going to catch you

CHORUS
