

Kill Hannah, Ten More Minutes With You

i dont know who you are
but right now, you're breaking my heart
and i dont know where you are
but like a bird you lift me up to the stars
now i'm feeling alive for the first time
here's hoping this day won't end
i dont know, man, what to do
i dont care
i need ten more minutes with you
i dont know who you are
but just one look and i'm hooked from the start
now i'm falling apart
it's what we get for falling in love
now i'm gonna explode for the first time
here's hoping this pain will end
i dont know, man what to do
i dont care
i need ten more minutes with you
do do do do
do do do do
i'm living for ten more minutes
