

Kill Hannah, The Trains Are So Loud

everyone
every time
the trains are so loud

and everyone
that has hands
can tear this hemisphere down

when the walls sway
like stage scenery
"it's my way out
so follow me down!"
when the gas light
burns the butterflies
when they start to burn
start to burn...

everytime
the gas lights burn
the butterflies
i see the way out
it's so loud
it's so loud

the trains are so loud
the trains are hemispheres down
the trains are so loud
the trains are butterflies out

the trains are so loud
