Kill Hannah, The Trains Are So Loud

everyone every time the trains are so loud

and everyone that has hands can tear this hemisphere down

when the walls sway like stage scenery "it's my way out so follow me down!" when the gas light burns the butterflies when they start to burn start to burn...

everytime the gas lights burn the butterflies i see the way out it's so loud it's so loud

the trains are so loud the trains are hemispheres down the trains are so loud the trains are butterflies out

the trains are so loud
