

# Kill II This, This Is The N.E.W.S.

If you could harness my hatred - Of this fucked up vile world  
You could power the whole planet - Then hopefully it might burn

The truth sometimes hurts - So let me tell you some lies  
Everythings gonna be alright - Ha! Ha! Ha! Yeah, fuckin right

This is the News - This is your future  
This is the News - You have no future  
You have no future - You have no future

Im seeing all the lies of our leaders - Every war that they feed us  
A flat square-eyed horizon  
For T.V. survival, be dead on arrival  
The scenes of mass bigotry - Mixed up with insanity

Force fed - your future through cable  
Brain dead - the pictures unstable  
Sedated - CNN creative  
The tumour grows - On the worldwide cancer show

This is the NEWS - This is your future  
This is the NEWS - This is the future

A sick pay per view execution - Of divine retribution  
Social evolution  
The crumbling foundations - Hypocrisy nation  
Gallows conspiracy - This is our democracy

Beirut - or Beverly Hills  
Dispute - so another man kills  
See violent moodswings stir - Yet another schoolground massacre
