

Kill Paradise, My Beauty Queen

I'm in love (x9)

I'm in love (x9)

I want to make you fall in love

The kisses and the hearts that I dream of

I want to make your heart go crazy

Be something like the metronome and be my baby

I can't believe the way you rock

And how you drop your hips

And how your screaming while your kissing lips

You know you have me mesmerized

The way you blink your eyes

(Chorus)

Looks like somebody has to scream

And now you're bringing me things (repeat)

You are my Beauty-Queen

You're my Beauty-Queen

You are my Beauty-Queen

You're my Beauty-Queen

I'm in love (x9)

I'm in love (x9)

She just looks so special to me

And I met her when I was only three

And I knew when we would play on the swing set

She was my queen

Oh believe it's true I will stay close to you

And when your sad you can look at the picture I drew for you

The one that I drew of you
