Kill Paradise, RCNK

I fall down in the street

I need somebody to help me to my feet

The dreams I'm having make me scared of the heat

But thanks to you I know it time I could be

Anything you told me that from day one

Said I could be the president so what the heck I'll go be one

You taught me to use manners and showed me the family tree

And now everyday I thank God for my family

I don't know where I'd be

It's so astonishing

Thank you Dad for working so hard so that I could be

Anything that I wanted to be and thank you Kimberly

For saying every single prayer that you said for me

So I just sit back and relax knowing that God has plan for me

And thank you family, thank you family

For sporting me in everything

I just don..t know where I..d be

Without your love, with out you mommy

And I know that may sound incredibly cheesy but who cares

This is for my family

I remember Mom when you took me to school

You drove the Jeep because I though it was cool

It was my first day of high school

And if it wasn't for you I'd swear I would look like a fool

You see that..s just the thing you would do anything

It doesn't matter about the pain you would do it for me

And now I'm older and my eyes are open wider you see

I swear to God ill never forget my family

And don't think I forgot about you, my Kimberly

I love you so much I cry just trying to sing

And I'd do anything to be as great a my Dad

Everybody come meet the best guy I..m sure glade I already have.

So I just sit back and relax knowing that God has plan for me

And thank you family, thank you family

For sporting me in everything

I just don..t know where I..d be

Without your love, with out you mommy

And I know that may sound incredibly cheesy but who cares

This is for my family

So I just sit back and relax knowing that God has plan for me

And thank you family, thank you family

For sporting me in everything

I just don..t know where I..d be

Without your love, with out you mommy

And I know that may sound incredibly cheesy but who cares

This is for my family
