

Kill The Lights, Dead From The Start

I close my eyes
Just to see your face
I've seen the ending and it's always the same
So, bleed... bleed out my faith
The clock is ticking, and I've seen my own grave
Just lay me down tonight

Cover the corpses
Bury your dead
Pray for forgiveness
Our battle is lost
our curse lives in the dark
We were dead from the start

So, drown your broken lies
I'm sick of trying to smile
I'll suffocate your sleeping heart
At night

I dream the past away
I'm not a victim but I carry this weight
I know you feel it too

Cover the corpses
Bury your dead
Pray for forgiveness
Our battle is lost
our curse lives in the dark
We were dead from the start
Swallow the poison
Sing till we're dead
Wash all the blood
From your hands as we scream
our curse lives in the dark
We were dead from the start
