

# Kill Your Idols, Stuck In A Rut

It seems I know this place to well  
my personal living hell  
standing at the edge of this cliff  
made this climb too many times  
doing what's worst for me and mine  
all while coming off cold and stiff  
I'm stuck in a rut  
these wrists should be cut  
I'm all out, fuck fuck fuck!  
where did I go  
with what I know?  
I've seen this place before  
a view from the floor
