

Killer Dwarfs, Are You Ready

On the road to nowhere
Leaving really soon
Could be heaven, could be hell
Could be on the moon

Are you ready
Are you higher
Are you ready
Are you higher

How you feeling so far
Right above my eyes
Walk down on beside her
Do not apologize

Are you ready
Are you higher
Are you ready
Are you higher

Are you ready

Are you higher
Are you ready
Are you higher

Down south past the border
On the road that is my home
Rockin' with some friends of mine
Party on the move

Are you ready
Are you higher
Are you ready
Are you higher

Are you ready to rock tonight
Are you higher to fly into the sky
Are you ready to rock tonight
Are you higher to fly into the sky
