Killer Dwarfs, Nothin' Gets Nothin'

Nothing but heartbreak Nothing but pain People on people Drive each other insane

Why can't we live And let live like they say Stop all this madness That's causing dismay

Nothin' gets nothin' Except what you give Nothin' gets nothin' You get what you give

Because I can feel Your soul from here

I'll reach right in And steal your fears

Why can't we live And let live like they say Stop all this madness That's causing dismay

Nothin' gets nothin' Except what you give Nothin' gets nothin' You get what you give

Out of the darkness And into the light You only get out What you put into life
