

Killer Dwarfs, Union Of Pride

If we could look into the future□
And cheat the sands of time
Would it be worth the pain we're felling
Just to find some peace of mind
I've been searching for a reason
Yes I'm looking for a sign
Can you hear me, are you out there
I've got to know before I die

Together we stand, together we'll fall
A union of pride, freedom for us all

Gotta plant the seed
If you want to have freedom
Gotta feel the need
You can't fake what this heart's been feeling
I've been waiting for a sign
Someting to show me you're on my side
Together we will be a union of pride
Everyone is making changes

I can feel it coming down
Pullin' strings, makin' arrangements
An hour glass inside my head
I've been searching for a reason
Yes I'm looking for a sign
Can you hear me, are you out there
I've got to know before I fly

Together we stand, together we'll fall
A union of pride, freedom for us all

Gotta plant the seed
If you want to have freedom
Gotta feel the need
You can't fake what this heart's been feeling
I've been waiting for a sign
Someting to show me you're on my side
Together we will be a union of pride
