

Killing Heidi, Black Sheep

Will you walk from what we've got....
Will you walk from what we've got?
Walk through the long dry grass,
Past the trees and then
on past all the places we have been before.
Through the tracks the sheep have made
Past the dam and into the shade-
you can see the other towns from here.
Will you walk from what we've got...
Will you walk from what we've got?
And as you walk back down,
You know that's where you wanna be found-
it always makes you feel that way.
Now as you wonder why these things sometimes pass us by,
So would you throw it all away?
Will you walk from what we've got....
Oh, will you walk from what we've got?
