

Killing Heidi, Class Celebrities

Black mascara smudges your face
You sit in your grassy place
The grass is oh so greener on the otherside
But then i would wonder why
It's never going to be that way
Cause you got a pretty face
Not going to be one of those girls
Don't want to live in that world
Does popularity come with a make-up case
Just think of all the time you waste
See the sporties get their prizes
As we hide in the faculties demises
It's never going to be that way
Cause you got a pretty face
Not going to be one of those girls
Don't want to live in that world
It's never going to be that way
Cause you got a pretty face
Not going to be one of those girls
Don't want to live in that world
