

# Killing Heidi, Jon's Song

Speak to me and let us be,  
For you know  
That's how it could be

And race, cause it's all I need  
And be my everything

What you take is always replaced, but where  
Am I left- with all those behind  
And race, cause it's all I need  
And be my everything

Would you wait there- fear what's ahead  
Does it mean that we couldn't bear?  
And race.....
