

Killing Heidi, Kettle

Kettles boiling in the other room
Didn't know that life would end so soon
I'm not clinically dead
That's the message going to my head

'Cause i'm too young to die
And i'm too old to cry
Now i'm too young to die

Kettle's whistling through my brain
It's sound is drivin me insane
It's a journey just to turn the kettle off
Billion years ago i'd had enough

And now i'm too young to die
And i'm too old to cry
Now i'm too young to die

Kettle's boiling in the other room
Didn't know that life would end so so so soon
'Cause im not clinically dead
But that's the message goin to my head

'Cause i'm too young to die
Now i'm too old to cry
Now i'm too young to die
Too young to die

Too young to die
I wonder why i sit and cry

Now i'm too young to die
Too young to die
'Cause im too young to die
