

Killing Heidi, Outside of Me

Always were out of time, the action makes you smile...
When your hands are by your sides.
Feed the tree that you love, a light
comes from above, then it fades before your eyes.
Do you see it? Do you feel it? Well I mean it...

Well your right outside of me - didn't seem to care.
and you had your hold on me - you know it's not fair.

Make it last for the while, keep it with your eyes
Yeah it's you they're thinking of.
lasts for more than while - turns into a style...
When you feed the tree you love.
Can you feel it? Do you see it? Well I mean it..

(Chorus)

You wake up, you take up, you pace round, you're spaced out,
You're taken up with what you see.
You wake up, you take up, you pace round, you're spaced out,
You're taken up with what you see.
One more time - what you see (x3), you say it's not fair.

Chorus

It's not fair.
