

Killing Heidi, Teen Angst Unrequited Love Song

when it comes to push and shove
its teenage unrequited love
and it makes me sick yeah
ive been complaining to my friends
and they think they'll never hear the end
of you boy

oh but whats a girl to do
when she's stuck thinking of you
and you dont feel it
and when im lying in my bed
these graphic pictures fill my head
and makes me sick again

if i wanted to make you feel ok id say i felt the same way
cant cause i dont know if its gonna go away

you make me want you so bad
you make me want what ive never been able to have

and i feel like running back
and then youll know ive been slacking off in school
ive been so lazy today
havent even had the strength to say hello to you

well my guitar sounds so dead
its only ringing in my head
and on my pillow
but the confusion comforts me
and whether you can see
you never will know

if i wanted to make you feel ok id say i felt the same way
cant cause i dont know if im gonna go away

you make me want you so bad
you make me want what ive never been able to have
you make me want this so much
you make me want what ive never been able to have
you make me want you
you make me want what ive never been able to have

if i wanted to make you feel ok id say i felt the same way
cant cause i dont know if its gonna go away....
