

# KillRadio, Scavenger

Know you by waste and not by your face.  
Not by introduction not by handshake.  
Not by the things that you own, but the things you dispose.  
It's not a case of theft but a case of loan,

Scavenger have you heard,  
I'm sifting through your trash still I'm gonna make it last well,  
Scavenger survivor's find a way

Still sticky fingers find sticky situations,  
but in the wake of swept rugs we all need assistance.

So now I'm living off the spoils of leftover generations,  
equipped with wit and long legs if I need them  
to hold my ground but not be found.  
I'm quicker than the wind but half as loud,

Scavenger have you heard,  
I'm sifting through your trash still I'm gonna make it last well,  
Scavenger survivor's find a way

Scavenger have you heard,  
I'm sifting through your trash still I'm gonna make it last well,  
Scavenger survivor's find a way  
They find a way.

Are you done give me some, Cause I'm fucken hungry  
Don't need pride with an empty belly.  
Got no shame cause I know we're all whores,  
Trying to pull the hustle, just trying to pull the,

Scavenger have you heard,  
I'm sifting through your trash still I'm gonna make it last well,  
Scavenger survivor's find a way

Scavenger have you heard,  
I'm sifting through your trash still I'm gonna make it last well,  
Scavenger survivor's find a way  
They find a way, they find a way.
