

Killswitch Engage, Us Against The World

This day will resound in our melodies
The voices of fate
A testament to all we hope for

They will learn of the passion and tragedy
That lies in wait when they stand up
Stand up against the onslaught

Nothing could ever tear us apart!

Our spirit is never ending
I'll be the protection when you fall
Our spirit is never ending
So tell them it's us,
Us against the world!

This catastrophe will serve to redeem our purpose
Do you believe, they could never come between us?

Our spirit is never ending
I will be the protection when you fall
Our spirit is never ending
Tell them it's us against the world!

The saga unfolds
The Legends of Old will guide us all
The crack of the skull
The blood
And the soul
We hear the endless call
