

# Kim Carnes, In The Chill Of The Night

(Kim Carnes/Dave Ellingson)

Oh every soul  
Needs to have someone  
Needs to have someone to hold his hand  
And every hand needs to hold on to  
The hand of another  
The hand of a friend

But it's alright babe  
Cause I know how you feel  
Deep in the night babe  
When you feel the chill  
The chill of the night babe  
When you turn out the light babe  
I'll hold you tight babe  
If you will in the night babe  
In the chill of the night babe

Are you looking for someone  
Someone you can talk to  
You know I don't expect you to always be strong  
I'll be around long after midnight  
We'll sit by the firelight  
Talkin' you down

But it's alright babe  
Cause I know how you feel  
Deep in the night babe  
When you feel the chill  
The chill of the night babe  
When you turn out the light babe  
I'll hold you tight babe  
If you will in the night babe  
In the chill of the night babe

Put a light in the window  
And just keep it burning  
Cause whenever you need me I come to you  
Cause every heart that keeps on beating  
Needs to have someone  
He can always turn to  
In the chill of the night  
In the chill of the night babe
